The Capital Link Invest in Greece Forum : A New Era - A New Direction for Greece

We are delighted to announce that our flagship annual conference "**Capital Link Invest in Greece Forum: A New Era - A New Direction for Greece**", will be taking place, as an in-person event, on Tuesday, December 14, 2021 at the Metropolitan Club in New York. **Based on current trends, we expect to host this event as a physical forum.** We will of course monitor developments closely and will adapt accordingly.

An International Summit About Greece in New York

The "Capital Link Invest in Greece Forum" is an International Summit about Greece in New York, organized in cooperation with the **New York Stock Exchange and major global investment banks**. It is the longest running investment forum about Greece abroad, engaged in a systematic effort to promote Greece as a business and investment destination to a global audience.

Greece At the Forefront of New Business & Investment Opportunities – Excellent Forum Timing

Greece has made a dynamic comeback in the global capital markets and the global investment community but this is the first step. Looking ahead, despite the challenges stemming from the pandemic, there is a new reality and potential in Greece today. Modernization and Investments" are at the heart of the "Greece 2.0" program, the largest plan developed in the modern history of the country aiming to change the economy model, transforming it into a competitive and extroverted one, with a digital and efficient state. The approximately EUR 31 billion that will be disbursed by the Recovery and Resilience Facility - in addition to the funds from the European Development Programs included in the new EU budget for the period 2021-2027, can be the foundation for Greece to attract the significant and additional foreign investments that the country needs.

In this context, the Forum will highlight the significant progress made so far and the potential ahead. It will highlight Greece's competitive advantages and focus on business and investment opportunities across the major sectors of the economy. The timing for this Forum is excellent.

Top Delegation of Government & Business Leaders Addressing the Who-Is-Who of Wall Street & Main Street

Every year, a delegation of senior government officials, led by the Prime Minister, and a group of private sector business leaders update a global audience on the reforms, developments and outlook of the Greek economy and each of the main sectors highlighting trends, challenges and opportunities. Furthermore, a group of international investors and financiers share their insight on Greece as a Business and Investment Destination.

With a 23-year track record, this Forum enjoys unique branding, acceptance and support by the US, Greek and Greek American business, investment and financial communities.

One-on-one Meetings

In parallel to the main sessions, a series of one-on-one meetings are hosted between investors, the management of the participating companies and government officials, providing unique networking opportunities.

Who Should Attend

Management of Top U.S. Corporations with an active interest or involvement with Greece and The Greater Region · Institutional Investors in Greek Equities & Fixed Income Securities · Portfolio Managers & Analysts · Commercial and Investment Bankers · Financial Advisors and Brokers · Financial Media & Press

**Annual Capital Link Hellenic Leadership Award
Honoring
Mr. Alex Fotakidis & CVC Capital Partners**

The "**2021 Capital Link Hellenic Leadership Award**" will be presented to **Mr. Alex Fotakidis**, Partner, Head of Greece – **CVC Capital Partners**, for his outstanding contribution to Greece.

CVC Capital Partners is among the most active institutional investors in Greece having committed more than Euro 1 billion in equity since 2017 across various sectors.

We recognize CVC Capital Partners and **Mr. Alex Fotakidis**, the partner heading the Greek investment team, for the positive impact on Greece and the Greek economy with the active investment participation and also for raising the profile of Greece as an investment destination within the global investment community. CVC Capital Partners' investments are a direct boost to the Greek economy and also a vote of confidence that can help attract additional foreign investments.
